

**International Baccalaureate  
Examination Schedule  
May 2017 - Room 111**

With the exception of multiple choice question papers (Paper 1 for Biology, Physics and Chemistry), all exams must start by allowing candidates *five minutes* to read the question paper. The duration of five minutes, which must be strictly observed, is in addition to the total time available to answer the question paper. During the five minutes reading time, candidates are not allowed to write notes or ask questions.

**It is each student's responsibility to read the exam schedule correctly and arrive in good time (15 minutes prior).**
